About Today’s Presentation

Phone lines will be muted the entire duration of the training

Submit questions pertinent to the webinar using the Q&A panel

Questions will be answered verbally, as time allows, at the end of the session

A “Q&A” document will be developed and posted at CBR.CBRPEPPER.org
To Ask a Question in Split Screen

Ask your question in Q&A as soon as you think of it.

1. Go to the “Q&A” window located on the right side
2. In the “Ask” box, select “All Panelists”
3. Type in your question
4. Click the “Send” button
To Ask a Question in Full Screen

1. Click on the “Q&A” button to bring up the Q&A window

2. Type in your question (as in the previous slide)

3. Click the “Send” button

4. Click “-” to close window to see full screen again

Webinar Objective

• Understand the purpose and use of Comparative Billing Reports (CBR)
• Comprehend the function of the Comparative Billing Report CBR201905, Air Ambulance Transports
• Gather resources for further questions and inquiries
Webinar Agenda

• What is a CBR?
• CBR201905
• Review a sample CBR
• How to access your CBR
• Helpful resources
• Questions
What is a CBR?

• CBR, as defined by CMS
• History of the National CBR program
• Purpose of CBRs
• Why does CMS issue CBRs?
• CBR formatting
The CMS Definition of a CBR

• CBRs are free, comparative data reports

• CMS defines a CBR as an educational resource and a tool for possible improvement
History of the National CBR Program

The national CBR program is separate and not related to comparative billing reports that are produced by Medicare Administrative Contractors (MACs) in support of their individual provider education activities.

- **2010**
  - CMS implemented a national program to produce and disseminate CBRs to physicians, suppliers, pharmacies, and other health care providers

- **2018**
  - CMS combines the CBR and the Program for Evaluating Payment Pattern Electronic Reports (PEPPER) programs into one contract

- **2019**
  - RELI Group and its partners—TMF and CGS—begin producing CBRs and PEPPERs
Why Does CMS Issue CBRs?

CBRs provide value to both CMS and Providers

Value to CMS

• Support the integrity of claims submission and coding guidelines
• Summarize claims data, according to specific coding areas
• Provide an educational resource and tool for possible improvement by providing coding guidelines and comparing claims submission data to peers, nationally and statewide

Value to Providers

• A CBR reflects providers’ billing patterns as compared to peers providing care in the same specialty, on a statewide and nationwide basis
• Provide specific coding guidelines and billing information
• CBRs are available for providers whose billing patterns differ from those of their peers
CBR Formatting

1. **Introduction**
   - Explanation of billing area and description of findings of the CBR

2. **Coverage and Documentation Overview**
   - Identification of claims data and CPT code information

3. **Basic Coding Guidelines**
   - Itemization of CPT codes and details of billing processes

4. **Metrics**
   - Explanation of the data and analysis used for the CBR
   - Detailed list of CPT codes and the effect that the billing guidelines have on the CBR results

5. **Methods and Results**
   - Overall analysis results and individualized results comparing CBR recipient to other providers

6. **References and Resources**
   - Resources used for the CBR
Air Ambulance Transports

• Transports are based upon mode of transport
  – Fixed wing
  – Rotary wing

• Mileage per transport is reported in addition to the mode of transport
CBR201905 CBR Focus

• Providers who submitted Medicare Part B claims for Air Ambulance Transport
  – A0430: Fixed wing air transport
  – A0431: Rotary wing air transport
  – A0435: Fixed wing air mileage
  – A0436: Rotary wing air mileage

• Air Ambulance services are paid only for services to a hospital
CBR201905 CBR Provider Focus

• The CBR team identified providers who submitted Air Ambulance Transport services
• Claims were submitted during the time period Dec. 1, 2017 and Nov. 30, 2018
Air Ambulance Transports

• Studies conducted by CMS found a large amount of reimbursement dedicated to this relatively small area of service

• Four other reports involving individual hospitals also concluded that there was value in identifying possible improper payments for Air Ambulance Transport services
CBR201905

Summarizes statistics for services with dates of service from Dec. 1, 2017 through Nov. 30, 2018

7 providers, nationwide, with a combined amount of $552 million for 77,000 beneficiaries
CBR201905 Analysis and Focus

• Analysis of rendering providers who submitted HCPCS® codes A0430, A0431, A0435, and A0436 on Medicare Part B claims extracted from the Integrated Data Repository, based on the latest version of claims as of March 29, 2019
Why did I receive a CBR?

• A CBR is presented because your billing patterns differ from your peers’ patterns
  – Receiving a CBR is not an indication of or precursor to an audit
Peer Comparison Outcome

- **Significantly Higher** — Provider’s value is above the 90th percentile from the region or national mean
About the 90th Percentile

• Providers receiving a CBR have an outcome of “Significantly Higher” in any of the metrics.
• “Significantly Higher” means that a provider’s value is above the 90th percentile from the peer region or national mean.
Why Did I Receive a CBR?

The criteria for receiving a CBR is that the provider:

- Are significantly higher compared to national percentages in any of the three metrics (greater than the 90th percentile)
- Has at least ten claim lines (transports) submitted for A0430, A0431
- Has total allowed charges of $5,000 or more for claims submitted for A0430, A0435, A0431, A0436

Metrics of Sample CBR

This report is an analysis of the following metrics:

1. Average number of miles per transport
2. Average allowed amount per transport
3. Average allowed amount per unit
Calculation of Metric 1

- Average Number of Air Ambulance Miles per Transport for Fixed Wing transports.
- The calculation for Fixed Wing transport:

  \[
  \text{Sum of Units for A0435} \\
  \text{Count of claim lines for A0430}
  \]
Calculation of Metric 1, cont’d

• Average Number of Air Ambulance Miles per Transport for Rotary Wing transports.

• The calculation for Rotary Wing transport:

  Sum of Units for A0436  
  Count of claim lines for A0431
Calculation of Metric 2

• Average allowed amount per transport for Fixed Wing transport.

• The calculation for Fixed Wing transports:

\[
\text{Sum of Allowed Amount for A0430} \\
\text{Count of Lines for A0430}
\]
Calculation of Metric 2, cont’d

• Average allowed amount per transport for Rotary Wing transport.

• Calculation for Rotary Wing transports:

\[
\text{Sum of Allowed Amount for A0431} \\
\text{Count of Lines for A0431}
\]
Calculation of Metric 3

- Average allowed amount per mile for Fixed Wing transport.
- The calculation for Fixed Wing Transport:

\[
\frac{\text{Allowed amount for A0435}}{\text{Sum of Units for A0435}}
\]
Calculation of Metric 3, cont’d

- Average allowed amount per mile for Rotary Wing transport.
- The calculation for Rotary Wing Transport:

  Allowed amount for A0436
  Sum of Units for A0436
Provider Trends

Welcome to CBR PEPPER

Welcome to the new combined website for Comparative Billing Reports (CBRs) and the Program for Evaluating Payment Patterns Electronic Reports (PEPPERS). CBRs and PEPPERS are educational tools made available by the Centers for Medicare & Medicaid Services (CMS) for providers’ use in support of their efforts to protect the Medicare Trust Fund.

About CBR

Comparative Billing Reports (CBRs) are disseminated to the Medicare provider community to provide insight into Medicare policy and regional billing trends.

Welcome to CBR Resources

This is the official site for information, training and support related to Comparative Billing Reports (CBRs).

CBRs are disseminated to the Medicare provider community to provide insight into Medicare policy and regional billing trends. The CBRs that are distributed to the provider community contain an analysis of billing practices across geographic and service areas. Medicare Administrative Contractors (MACs) have been producing and disseminating comparative billing reports to providers in their jurisdiction as part of their provider education efforts for many years. The Centers for Medicare & Medicaid Services (CMS) has formalized and expanded the program to the national level.

A CBR will present the results of statistical analyses that compare an individual provider's billing practices for a specific billing code or policy group with the billing practices of that provider's peer groups and national averages. Each CBR is unique to a single provider and is only available to that individual provider. CBRs are not publicly available.
