# The CMS Definition of a CBR

- CBRs are free, comparative data reports.
- The Centers for Medicare & Medicaid Services (CMS) defines a CBR as an educational resource and a tool for possible improvement.

# History of the National CBR Program

The national CBR program is separate and not related to comparative billing reports that are produced by Medicare Administrative Contractors (MACs) in support of their individual provider education activities.

2010

- CMS implemented a national program to produce and disseminate CBRs to physicians, suppliers, pharmacies, and other health care providers.

2018

- CMS combined the CBR and the Program for Evaluating Payment Pattern Electronic Reports (PEPPER) programs into one contract.

2019

- RELI Group and its partners—TMF Health Quality Institute and CGS—began producing CBRs and PEPPERS.

# Why does CMS issue CBRs?

CBRs provide value to both CMS and providers.

## Value to CMS

- Supports the integrity of claims submission
- Summarizes claims data
- Provides an educational resource for possible improvement by providing coding guidelines information

## Value to Providers

- Reflects providers' billing patterns as compared to their peers
- Provides specific coding guidelines and billing information
- Informs providers whose billing patterns differ from those of their peers

# Why did I receive a CBR?

- A CBR was issued because your billing patterns differ from your peers' patterns, based on comparisons on a state, specialty, and/or nationwide level.
  - Receiving a CBR is not an indication of or precursor to an audit.

## The Criteria for Receiving *CBR202103*

The criteria for receiving *CBR202103* are that a provider:

1. Is significantly higher compared to either state or national percentages in any of the three metrics (i.e., greater than or equal to the 90th percentile), and
2. Has at least 130 total beneficiaries with claims submitted for CPT® codes 92004, 92014, and
3. Has at least \$17,200 in total allowed charges for CPT® codes 92004, 92014

- **Does Not Exceed** — Provider's value is less than or equal to the state or national mean.
- **Not Applicable (N/A)** — Provider does not have sufficient data for comparison.

## About the 90<sup>th</sup> Percentile

- Statistics were calculated for each provider in three metrics, as well as for all providers in the nation. Each provider's values were compared to the provider's peer state group's values, as well as the national values.
- Providers receiving a CBR have an outcome of "Significantly Higher" for any of the three metrics.
- These results look very different from the results of providers' peers on a state or national level.

# Calculation of Metric 1

## Percentage of Comprehensive Eye Examinations

Metric 1 is calculated as follows:

- The count of unique claims for comprehensive eye examinations (CPT® codes 92004 and 92014) is divided by the count of unique claims for comprehensive and intermediate eye examinations (CPT® codes 92002, 92012, 92004, and 92014).

# Calculation of Metric 2

## Average Allowed Amount per Claim

- Metric 2 is calculated as follows:
  - The total allowed charge amount for comprehensive and intermediate eye exams (CPT® codes 92002, 92012, 92004 and 92014) is divided by the total number of unique claims for comprehensive and intermediate eye exams (CPT® codes 92002, 92012, 92004, and 92014).

## Calculation of Metric 3

### **Average Number of Comprehensive Eye Examinations per Beneficiary**

- Metric 3 is calculated as follows:
  - The total number of unique claims for comprehensive eye examinations (CPT® codes 92004 and 92014) is divided by the total number of unique beneficiaries for comprehensive eye examination (CPT® codes 92004 and 92014).

# Provider Trends

### Welcome to CBR Resources

This is the official site for information, training and support related to Comparative Billing Reports (CBRs).

CBRs are disseminated to the Medicare provider community to provide insight into Medicare policy and regional billing trends. The CBRs that are distributed to the provider community contain an analysis of billing practices across geographic and service areas. Medicare Administrative Contractors (MACs) have been producing and disseminating comparative billing reports to providers in their jurisdiction as part of their provider education efforts for many years. The Centers for Medicare & Medicaid Services (CMS) has formalized and expanded the program to the national level.

A CBR will present the results of statistical analyses that compare an individual provider's billing practices for a specific billing code or policy group with the billing practices of that provider's peer groups and national averages. Each CBR is unique to a single provider and is only available to that individual provider. CBRs are not publicly available.
