Webinar Objectives

- Understand the purpose and use of Comparative Billing Reports (CBRs)
- Comprehend the function of *CBR202208: Cataract Surgery*
- Gather resources for further questions and inquiries

Webinar Agenda

- What is a CBR?
- How to access your CBR
- Review a sample CBR
- *CBR202208*
- Helpful resources

The CMS Definition of a CBR

- CBRs are free, comparative data reports
- The Centers for Medicare & Medicaid Services (CMS) defines a CBR as an educational resource and a tool for possible improvement

History of the National CBR Program

The national CBR program is separate and not related to comparative billing reports that are produced by Medicare Administrative Contractors (MACs) in support of their individual provider education activities.

2010

- CMS implemented a national program to produce and disseminate CBRs to physicians, suppliers, pharmacies, and other health care providers

2018

- CMS combined the CBR and the Program for Evaluating Payment Pattern Electronic Reports (PEPPER) programs into one contract

2019

- RELI Group and its partners — TMF Health Quality Institute and CGS — began producing CBRs and PEPPERS

Why does CMS issue CBRs?

CBRs provide value to both CMS and providers

Value to CMS

- Supports the integrity of claims submission
- Summarizes claims data
- Provides an educational resource for possible improvement by providing coding guidelines information

Value to Providers

- Reflects providers' billing patterns as compared to their peers
- Provides information about vulnerabilities to the Medicare Trust Fund
- Informs providers whose billing patterns differ from those of their peers

Five Things a CBR Is Not

An indication of wrongdoing

An audit

A medical review CBR

A prompt to change your clinical care

A request for a response

Why did I receive a CBR?

- A CBR was issued because your billing patterns differ from your peers' patterns, based on comparisons on a state, specialty, and/or nationwide level.
 - Receiving a CBR is not an indication of or precursor to an audit.

The Importance of Downloading Your CBR

- Download your CBR from the CBR Portal:
<https://cbrfile.cbrpepper.org>
- Guarantee the availability of the CBR to any department or employee tasked with reviewing it
- Provide easy access for compliance reviews

How to Access Your CBR

<https://cbrfile.cbrpepper.org>

CBR Portal

Our Team is committed to ensuring and maintaining the confidentiality of each provider's Comparative Billing Report (CBR). All CBR recipients are expected to maintain and safeguard the confidentiality of privileged data or information.

I certify that I am the ☐ CEO ☐ President ☐ Administrator ☐ Compliance Officer ☐ Owner/Healthcare Provider and that I have the actual authority to receive this CBR and all other confidential information concerning this health care provider. If a provider does not have a management position with any of these titles, the person who has the authority to make decisions on behalf of the provider should check the box for the title that best describes their position.

The Purpose of *CBR202208*

- Protect the Medicare Trust Fund
- Increase providers' awareness about utilization of cataract surgery
- Support providers' internal compliance processes
- Provide coding guidelines and requirements

Cataract Surgery Vulnerability

- According to the *2021 Medicare Fee-for-Service Supplemental Improper Payment Data* report:
 - There is a 12.7% improper payment rate for eye procedures-cataract removal/lens insertion, which represents over \$218 million in improper payments
 - 87.2% of this improper payment rate is attributed to insufficient documentation
 - 12.8% of this improper payment rate is attributed to incorrect coding

CBR202208 Outline

1. Introduction

- Explanation of CBR focus and billing area vulnerability
- Criteria for receipt of a CBR

2. Coverage and Documentation Overview

- Identification of Current Procedural Terminology® (CPT®) codes
- Summary of provider's utilization

3. Metrics

- List of the metrics and outcomes analyzed with the CBR
- Definition of state and national peer groups

4. Methods and Results

- Overall analysis results
- Individualized results comparing CBR recipients to other providers

5. References and Resources

- Resources used for the CBR

CBR202208 Analysis and Results

- *CBR202208* summarizes statistics for services with dates of service from Jan. 1, 2019, through Dec. 31, 2019
- There were 10,079 rendering providers with combined allowed charges of over \$1.096 billion for providers that submitted claims for cataract surgery

Cataract Surgery Desired Behavior

- Help reduce the possibility of improper payments by taking the following actions:
 - Review CPT® codes to ensure correct code assignment
 - Perform regular internal reviews of documentation and code selection to ensure accuracy and compliance

Metrics of *CBR202208*

This report is an analysis of the following metrics:

1. Percent of cataract surgeries billed as a complex procedure
2. Percent of beneficiaries with a cataract surgery who have a subsequent secondary cataract surgery on the same eye performed by the same or a different provider within 547 days
3. Percent of cataract surgeries where post-operative care was rendered by a different provider

The Criteria for Receiving *CBR202208*

- The criteria for receiving *CBR202208* are that a provider:
 - Is significantly higher compared to either peer group or national percentages, in any of the three metric calculations (i.e., greater than or equal to the 90th percentile), and
 - Has at least 30 total beneficiaries with claims submitted for cataract surgery, and
 - Has at least \$30,000 in total allowed charges for cataract surgery

Peer Comparison Outcomes

- **Significantly Higher** — Provider's value is greater than or equal to the 90th percentile from the state or national mean
- **Higher** — Provider's value is greater than the state or national mean
- **Does Not Exceed** — Provider's value is less than or equal to the state or national mean
- **Not Applicable (N/A)** — Provider does not have sufficient data for comparison

About the 90th Percentile

- Statistics were calculated for each provider in three metrics, as well as for all providers in the nation. Each provider's values were compared to the provider's peer state group's values, as well as the national values.
- Providers receiving a CBR have an outcome of "Significantly Higher" for any of the three metrics.
- These results look very different from the results of providers' peers on a state or national level.

Calculation of Metric 1

Percent of Cataract Surgeries Billed as a Complex Procedure

- Metric 1 is calculated as follows:
 - The number of complex cataract surgeries is divided by the total number of cataract surgeries

Calculation of Metric 2

Percent of Beneficiaries with a Cataract Surgery Who Have a Subsequent Secondary Cataract Surgery on the Same Eye Performed by the Same or a Different Provider Within 547 Days

- Metric 2 is calculated as follows:
 - The number of beneficiaries with a cataract surgery and a subsequent secondary cataract surgery on the same eye performed by either the same or a different provider is divided by the number of beneficiaries with a cataract surgery within 547 days

Calculation of Metric 3

Percent of Cataract Surgeries Where Post-Operative Care Was Rendered by a Different Provider

- Metric 3 is calculated as follows:
 - The number of cataract surgeries where a different provider rendered the post-operative care is divided by the total number of cataract surgeries

CBR202208 Provider Trend Figure 1

- Figure 1: Total Number of Beneficiaries Who Had Claims Submitted with Cataract Surgery Services, Trend Over Time
- The years for the graph are defined as follows:
 - Year 1: Jan. 1, 2017 – Dec. 31, 2017
 - Year 2: Jan. 1, 2018 – Dec. 31, 2018
 - Year 3: Jan. 1, 2019 – Dec. 31, 2019

CBR202208 Provider Trend Figure 2

- Figure 2: Total Number of Claims Submitted for Cataract Surgery Services, per Month, for Year 3
- Each month for the analysis year (i.e., 2019) is displayed for cataract surgery services

The Importance of the CBR Outcomes

- CBRs are educational and comparative tools for providers
- A CBR can help providers:
 - Ensure claims are correctly submitted to Medicare,
 - Complete self audits for compliance purposes, and
 - Review and confirm the importance of proper documentation and code assignment

Frequently Asked Questions

The following questions represent frequently asked questions (FAQs) from the provider community about Comparative Billing Reports (CBRs) and the CBR project in general. FAQs pertaining to a specific CBR release/topic are available with the resources specific to each CBR release/topic.

+	What is a CBR?
+	Why am I getting this report?
+	I have a question about the CBR I received. Who should I contact?
+	Can I get specific claim data related to this report?
+	I have a question about my claims. Who should I contact?
+	I did not receive a CBR. Can I request one?
+	How will I know if I have a CBR available?
+	Is there a sample CBR that I can view?

Welcome to CBR Resources

This is the official site for information, training and support related to Comparative Billing Reports (CBRs).

CBRs are disseminated to the Medicare provider community to provide insight into Medicare policy and regional billing trends. The CBRs that are distributed to the provider community contain an analysis of billing practices across geographic and service areas. Medicare Administrative Contractors (MACs) have been producing and disseminating comparative billing reports to providers in their jurisdiction as part of their provider education efforts for many years. The Centers for Medicare & Medicaid Services (CMS) has formalized and expanded the program to the national level.

A CBR will present the results of statistical analyses that compare an individual provider's billing practices for a specific billing code or policy group with the billing practices of that provider's peer groups and national averages. Each CBR is unique to a single provider and is only available to that individual provider. CBRs are not publicly available.

Success stories: How your peers have used CBRs.
